Cramming the deck of the troopship Monticello, a former luxury liner, 1,453 officers and men of the Army that was the first to invade continental Europe, the first to span the Rhine and the first to clasp hands with the Russians at the Elbe River, debarked yesterday at a New York harbor pier to the sound of whistles, sirens and jive-music.

The men were among 10,000 veterans of the European struggle who arrived here aboard three troopships and four Liberty ships which nudged their way into the harbor through a mist that almost shrouded the Statue of Liberty.
